### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the "CROSS-REFERENCE TO RELATED APPLICATION" paragraph inserted into the first page of the Specification by the Preliminary Amendment filed March 12, 2004, the words --now US patent no. 6,722,438,-- have been inserted after "October 17, 2002".

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: No prior art discloses or renders obvious a method for evaluating wells as claimed and wherein an electrically operable multi-position fluid control valve is repeatedly positioned to allow the fluid in the coiled tubing to flow into the inflatable packers to isolate at least one linear segment of the wellbore from the remainder of the wellbore; to lock the pressure in the wellbore sealing means (thereby allowing the pressure in the coiled tubing to be reduced); to allow the fluids in the section of the wellbore which has been isolated as well as fluids and solid materials from the formation adjacent to it to flow into through the valve into the coiled tubing; and to allow the fluids in the inflatable packers to flow into the wellbore until the pressure has been equalized and the packers have deflated.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
